## ESTIMATE

Services	qty	unit price	amount
POISON OAK/ BLACKBERRY VINE CLEARING	1.0	\$6,400.00	\$6,400.00
<p>Clear @ 80 x 200 ft. ave. upsloping area of park open space between upper restrooms and connecting road to elementary school above. Clear above vines by on-site "flailing" of vines into a compact 1" -2" ht., fire-safe mulch throughout area to provide some mitigation for heavy winter rains while quickly decomposing over 2 seasons. Area to be flagged before clearing. Does not include clearing of scotch broom, coyote brush, deadwood, etc.</p>			
Total			<b>\$6,400.00</b>

\*Note: Unless otherwise specified, our standard clearing involves cutting to a height of 1-2", with up to one inch of flailed vegetation left on-site in 3-8" lengths that will quickly biodegrade. This meets Fire Dept. requirements, while being ecologically sensitive and helping prevent erosion.
